

Health Check List for Students

Temperature Check

Temperature must not be greater than 100.0 f

**Parents/Guardians –
please answer the following questions:**

- Did the child have a fever at home in the past 24 hours?
- Is the child taking any medication?
- Has the child had diarrhea or unusual bowel movements in the past 24 hours?
- Is anyone in the immediate household sick or have symptoms?
- Is there anything concerning we should know today about the child?

If you answered "yes" to any of the above questions and cannot provide a doctor's note confirming that the cause is something non-transmittable, we cannot allow your child to attend preschool today.
